

# RVC SPAY AND NEUTER CLINIC

The following are included in the surgery cost:

- Pre-anesthetic exam
- Pre-surgical pain medication
- Injectable and gas anesthesia
- Spay or neuter surgery
- Post surgical pain medication

**Flea Treatment: If your pet is found to have fleas, they will be treated at your expense. Prices range from \$10 - \$20, depending on size. \_\_\_\_\_**

## Options:

**Pre-anesthetic Blood Work \$40 Accept \_\_\_\_\_**

I understand that by **declining** pre-anesthetic blood work, I accept the possibility of anesthetic complications and accept any additional cost which may arise from additional treatment. \_\_\_\_\_

**Post surgical E-Collar \$12 Accept \_\_\_\_\_**

I understand that by **declining** the post surgical E-Collar, I accept the possibility that my pet may lick and/or bite the incision causing delayed wound healing or incision opening. I accept any additional cost which will arise from the treatment of these complications. \_\_\_\_\_

HomeAgain Microchips are available. Usually \$75, **now \$50** and we submit all paperwork.

**MicroChip Accept \_\_\_\_\_ Decline \_\_\_\_\_**

We make every effort to avoid complications, however, unforeseen conditions may be revealed or may arise during your pet's procedure that necessitates additional treatments or procedures to be done. Understand that anesthesia carries risk no matter the age of the pet and that normal pre-anesthetic blood work does not guarantee a smooth anesthetic procedure. Any additional procedures or treatments needed because of anesthetic or surgical complications are the financial responsibility of the owner.
